Two people required!!

Step 12

Use Cable Clips (M) to route the power cable as required

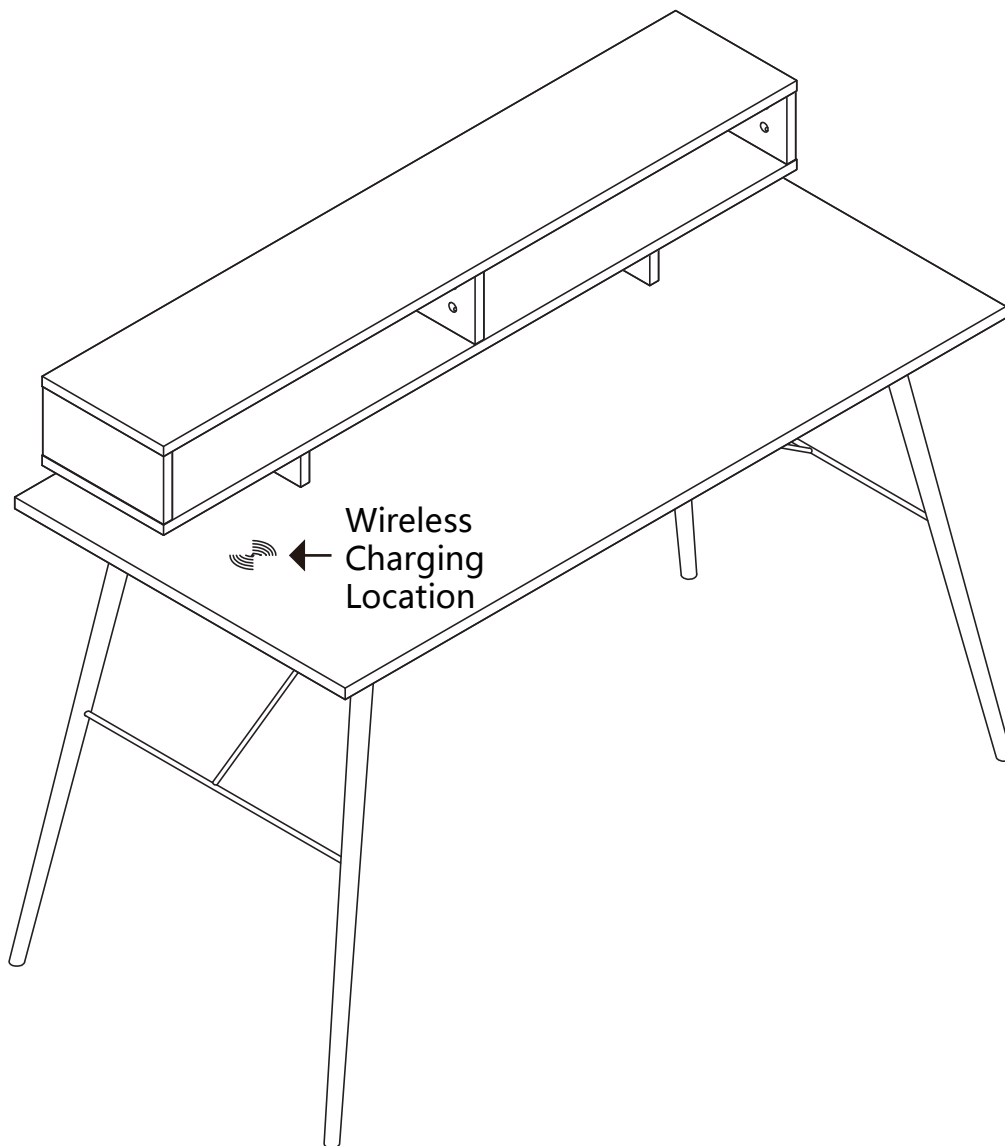

Wireless charging function

If you have a wireless charging compatible phone, please put the phone on the wireless charging indicator and check if the phone is successfully connected to the charging function. If not, move the mobile phone around the logo until the connection is successful.

Some phone cases may inhibit the wireless charging function or its efficiency. It may be necessary to remove the phone case if difficulties with charging are experienced.

Wireless charging will only work with wireless charging compatible mobile devices.

Technical Specification

Working voltage: DC DC 5V/2A

Wireless Charging:5W

Power Supply: AC adapter,100-240V~50/60Hz

Safety and Care Advice

- 1.The maximum weight that can be placed on this product is 30KG
- 2.This product must not be used as a seat.
3. Always use the original AC power adapter and power cable, otherwise it may cause slow wireless charging,In extreme cases,an incompatible AC power adapter may burn out.
4. In order to avoid accidents, do not open any electrical covers. Refer to a professional if the circuit is faulty.
- 5.Do not expose the product to damp or moisture.
- 6.Keep the product away from containers holding liquid.If any liquid enters into the product, it may be damaged.
- 7.Do not expose the product to dust or smoke.
- 8.If the product will not be used for a long time,please unplug the power.
9. When using the product ,if smoke appears,or if there is a peculiar smell,please turn off the power,pull out the socket and seek professional help.
- 10.Pull out the plug before cleaning the surface of the product. It can be cleaned with a damp cloth and soap.

Function

Wireless charging function
